

AGN. NO. _____

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

JUNE 21, 2004

DISARM FUNDING

In February 2000, the Probation Department implemented Developing Increased Safety through Arms Reduction Management (DISARM) program. This program pairs Probation officers with local law enforcement to perform unannounced searches of the homes and persons of probationers whose conditions of probation allow for such searches. This program is targeted at confiscating guns, drugs and other contraband from probationers prohibited from possessing these items.

Since the inception of this program, 7259 residences and 642 individual probationers have been searched. There have been 1239 weapons confiscated, including 70 assault weapons and 553 handguns. The searches have also yielded over 260 pounds of marijuana, 47 pounds of cocaine, 7.6 pound of methamphetamine, small amounts of heroin and PCP, and \$421,567 in illegal cash. The program has led to 2889 arrests. The success of this program is demonstrated and deserves additional funding.

I, THEREFORE, MOVE that the Board of Supervisors approve a \$1,000,000 budget augmentation from Fund Balance for the Probation's DISARM program.
